Ph 0419 879 838

We have a full range of Vintage Edison Light Globes to choose from. In all there are seven styles ranging from the long tube at 280mm in length and the large round at 120mm in diameter. There is a smaller round at 80mm diameter and the standard teardrop and bulb shapes. With its warm amber glow, an Edison light bulb exudes a rustic charm like no other light bulb.

All these lightbulbs are 240 Volt and 60 Watts suitable for Australian electrical solutions. They are all Edison Screw E27 making them suit all the lampholders we have in stock, both brass and bakelite.
